Project Summary

Project Background
The project supports the efforts of modernization started by the Algerian Government. It aims at improving economic and social conditions and at building new political, economic, cultural and social institutions, to change to a diversified and opened market economy. Therefore an upgrade of the vocational training system is needed to fill the gap between vocational education and training (VET) offer and demand.

Project Objectives
- The objective of technical assistance to upgrade the National Institute of Development and Promotion of Lifelong Learning (INDEFOC) by:
  - Supporting the reorganization of the vocational lifelong learning system
  - Offering capacity building for developing and promoting vocational lifelong learning
  - Improving the communication strategy of INDEFOC.

Project Activities
- Proposition of a strategy to achieve the objectives, establishment of the work plan and staffing schedule for international and national experts.
- Elaboration of a report about lifelong learning vocational training in Algeria
- Support the new organization of the institute
- Elaboration of a procedures manual
- Setting up new methodologies and tools for INDEFOC
- Strengthening capacities of INDEFOC.
- Elaboration and implementation of a communication plan for INDEFOC.
- Organization of a study trip for 10 managers of INDEFOC and of the Ministry of Vocational Education and Training

Services provided
- Assessment of lifelong learning;
- Reorganization of INDEFOC;
- Training of the staff;
- Elaboration of a training plan for trainers working in lifelong professional training;
- Definition of the services costs of INDEFOC;
- Organization of a study tour;
- Setting up a quality control system.
